Dear Jeff:

We hope that you will join The Hamilton Project at Brookings and the Stanford Woods Institute for the Environment for an upcoming forum we are jointly hosting on October 20th in Palo Alto. The purpose of this forum is to explore policy opportunities for improving water management in the United States in the face of scarce water supplies. Facebook Chief Operating Officer **Sheryl Sandberg** will give welcoming remarks, followed by an overview of the event by former U.S. Treasury Secretary **Robert E. Rubin**. California **Governor Jerry Brown** has been invited to give featured remarks on the landscape of water in the West, and Investor, Philanthropist and Advanced Energy Advocate **Thomas F. Steyer** will lead a panel on the impact of climate change on water resources. We would be delighted to save a spot for you in our reserved seating section. The full agenda can be [found here](#).

Other panelists include, among others: **Robert Glennon** of the University of Arizona; **James Lochhead**, Chief Executive Officer and Manager of Denver Water; **Thomas Iseman** of the U.S. Department of the Interior; **William Phillimore** of Paramount Farming Company; **Barton Thompson** of The Stanford Woods Institute for the Environment; **Michael Markus** of Orange County Water District; **Peter Yolles** of Water Smart Software; **Wade Crowfoot** of the Office of California Governor Jerry Brown; **Noah Diffenbaugh** of The Stanford Woods Institute for the Environment; **Peter Gleick** of The Pacific Institute; **Solomon Hsiang** of the University of California, Berkeley. The forum will close with remarks by **Steven Denning** of General Atlantic and Chairman of the Board at Stanford University.

Please feel free to share information regarding the forum with anyone in your network who might be interested in participating. [Registration details can be found here](#).

Thank you and don't hesitate to contact us with questions.

Warm regards,

Karen
